ABOUT US.

DEEPLY, UNIQUELY ROOTED IN NEW MEXICO

Our campus looks like New Mexico. It blends with the environment. It feels like New Mexico. There is no mistaking where you are when you're here. The art we create and display. The architecture-the buildings we live, work and learn in. **This is The University of New Mexico.** Unlike any other flagship state university anywhere, we live breathe and embrace who we are, as well as where we are.

OUR CAMPUS IS AN ARBORETUM

Honey Locusts, Siberian Elms, Ponderosa Pines. Our campus is the sprawling home for nearly **four thousand big (alongside little), beautiful, well-cared-for trees.** According to the USDA, typical trees live about 40 years with a 55 percent survival rate. The trees here, though, have a much higher life span as well as survival rate than normal, due in part to the stewardship of our **campus arborist.** Call 505.277.8503 to schedule a tour.
